Lacrima di Croatina

Indicazione Geografica Tipica

Grape: croatina

Vineyard: planting density 2.20m between rows, 1.80 between plants. Bud load 18-20. Sandy clay soil.

Yield: 60 q ha.

Harvest: in late October, after raising on the vine.

Vinification: in steel vats after destemming, on the skins for 6-7 days.

Aging: in steel vats for 4-5 months, then in the bottle for at least 60 days.

Alcoholic strength: 14% abv.

Bottle: Bordelaise.

Colour: intense ruby red.

Bouquet: floral, ripe red fruits, sweet spices.

Taste: notes of ripe red wine in a pleasing union with the varietal tannins.

Serving temperature: 16-18°C.

Recommended with: mature cheeses, chocolate, dry pastries and biscuits. A wine for meditation.
